## O'LEARY PITCHED DECEPTIVELY

Struck Out 17 Men and Al-  
lowed But 7 Hits, Some  
of Which Were Flukes

In the feature game of the baseball season, Spaulding high school scored a 7 to 3 win over Montpelier high school at Lincoln campus yesterday afternoon in one of the best games of the season. Spaulding's win was due in a large measure to the splendid pitching of O'Leary, who worked incessantly for his man and succeeded in scoring 17 strikeouts during the nine innings. Denmore of the Montpelier team had five strikeouts to his credit. O'Leary allowed only seven hits and half of those were flukes which might have been marked as errors. Spaulding found the opposing delivery for 13 hits, most of which were good long singles or doubles.

Neither team scored in the first inning of the game. Spaulding started the path to victory in the second, doubled with a hit to the cemetery. McLeod, who followed him, was caught on a steal to third after having scored. The next two men were put out. O'Keefe scored in the third for the second run on a double by Tierney after he had singled. Spaulding held a little rally in the fourth, getting two runs, the first being made by Nicola, who scored on a single by McLeod, the latter also coming in on a single by O'Leary. Spaulding scored once each in the sixth, seventh and eighth innings.

Barney scored the first run for Montpelier in the sixth after getting on by a single which was followed by a triple from Sheridan. A run by Denmore and Leaden in the seventh finished their rally and ended their scoring. Spaulding's next game will be with Burlington high at Burlington Saturday afternoon. The lineup:

## GODDARD CAME FROM BEHIND

With National Life,  
6 to 5

## FAST GAME PLAYED ON HILL CAMPUS

Taylor Taken Out of Box  
and Replaced By Luck  
for Goddard

One of the most exciting and active baseball games seen on the Goddard campus this year was played yesterday afternoon when Goddard came from behind in the last two innings of the contest and defeated the fast National Life team of Montpelier by a score of 6 to 5. The game from start to finish was full of pep and was very much a pitchers' battle from the second until the seventh inning.

In the opening inning, Taylor, who started the pitching for Goddard, was nipped for two doubles, followed by a single which scored two runs. In the second inning, after Taylor had been hit safely for two singles, Coach Aldrich sent in his relief pitcher, Luck, who pulled the team out of a 4 to 0 hole and pitched remarkable ball throughout the remainder of the game.

F. Gross pitched for the Montpelier team and was credited with 10 strikeouts while Luck is credited with 6. Goddard secured four runs in this inning which made the score 4 to 4. The red and white scored another run in the fifth when Sassi singled, stole second and came home on Moriarty's double. In this inning Moriarty clouted the ball for what might have been a home run but he sprained his ankle when rounding first and was only able to reach second. He was immediately removed from the game and Willey was sent in as a substitute.

In the sixth Montpelier evened the score to 5 to 5 when Morris reached first on a fielder's choice, stole second and reached third on an error and finally came home on a passed ball. In the final inning the insurance boys were unable to hit Luck. Cyran took his base in the seventh, followed by a double by Willey and Vanotti singled, scoring Cyran. The game ended with no outs for Goddard and with the hill boys with one run to the good.

For the semi-final round, Moriarty and Vanotti did most of the stick work, while Shepard was the only Montpelier man able to get two hits off of either pitcher.

The next home game will be played Saturday afternoon at 3:30 o'clock when the Goddard aggregation will line up against the Troy Conference academy team of Poultney. It is probable that either Luck or Willey will be in the box. The score yesterday:

## GIANTS INCREASE THEIR AMPLE LEAD

By Defeating St. Louis—Pitcher Artie Nehf Knocked In All of New York's Runs.

New York, May 11.—Southpaw Artie Nehf's effective pitching and timely batting proved too much for St. Louis yesterday and the Giants have increased their lead to five and one-half games by taking the second game of the western invasion from the Cardinals, 3 to 2. Nehf knocked in all of New York's runs, Rogers Hornsby conducted for his fifth home run of the season, but no one was on base at the time.

Charley Robertson, of no-hit fame, out-pitched Carl Mays in a tight 11-inning struggle and the White Sox won, however, retained its slim margin over St. Louis at the top when Walter Johnson twirled Washington to a 2 to 1 victory over the Browns.

Connie Mack used four pitchers to stop Cleveland, 7 to 6. Dykes' fourth homer of the season bringing in the winning runs, while Ty Cobb's Tigers made three in a row from Boston in a slugging beat. Dausa, who came to the rescue of Fillette, aided with a home run.

Alexander was batted out of the box again and Philadelphia, with Lee Meadows in airtight form, blanked the Chicago Cubs, 4 to 0, while the Braves slugged their way to a 9 to 3 triumph over Cincinnati, filling in holding the Reds safe at all stages.

## CARPENTIER FAVORITE IN LEWIS BOUT

Frenchman Will Have Advantage of  
Weight in Battle in Lon-  
don To-night.

London, May 11 (By the Associated Press).—George Carpentier will enter the ring to-night in the Black Friar's Road arena a heavy favorite to win over Ted ("Kid") Lewis in their 20-round match for the world's light heavyweight championship.

Jack Dempsey is here to witness the battle, and he is confident that Carpentier will have a walk-away.

While the weights of the men have not been given out, it is believed Lewis will step through the ropes against a 12-round handicap, but his backers are looking for him to make up the difference by gameness and ability to use both hands effectively. Lewis is expected to keep the milling at close quarters, to counteract the Frenchman's tendency for long range fighting.

Carpentier was a three to one favorite in the betting to-day. The main bout after five preliminary matches, is scheduled to begin at 9:30 o'clock.

## Famous Beauty Regains Health and Strength through Ironized Yeast

"A Wonderful Help in Keeping My Figure  
Perfect" Says Beautiful Elsie La Bergere

"It was by purest accident that I picked up a package of Ironized Yeast just as I was about to give up the stage for a long needed rest. The results that it brought in me proved that it was just what I needed. For today I actually feel like a new born woman!"

Such is the amazing statement of Elsie La Bergere, known to vaudeville lovers all over the continent for the beauty of her figure, all over the continent for the beauty of her figure, all over the continent for the beauty of her figure.

"My stage work," continued Miss La Bergere, "put such a severe strain on my nervous system that every performance became a hardship. I lost my appetite, and always felt tired and worn-out. Then I discovered Ironized Yeast—and I really cannot give enough praise to it. I find it keeps me absolutely fit in every way, and that it is a great help in keeping the shape of my body in wonderful condition. Ironized Yeast has a permanent place of honor in my traveling bag."

## How New Process Makes Yeast Doubly Effective

The reason IRONIZED YEAST brings such remarkable results is because it embodies a new scientific process which enables yeast to bring its great benefits often in just half the usual time. Yeast alone is good, but tests show that it needs some other agent in order to quickly convert its wonderful health-building elements into firm tissue, rosy cheeks and sparkling vitality.

Everyone knows that iron is of great value in converting our food into living cells and tissue. So working on this problem, our scientists finally discovered the wonderful process of ironization—the process through which the combination of yeast and iron becomes 100 per cent efficient.

Do not think, however, that any combination of yeast and iron will do. Yeast brings its best and quickest results only when it is treated through the scientific process of ironization.

Only in IRONIZED YEAST, the one scientifically correct yeast treatment.
